ENGINEERING NEWS-RECORD

A WEEKLY JOURNAL OF CIVIL ENGINEERING
AND CONSTRUCTION PRACTICE

Volume 108

January to June, 1932

McGRAW-HILL PUBLISHING COMPANY, INC.
330 W. 42d St.
NEW YORK CITY

INDEX TO ENGINEERING NEWS-RECORD

VOLUME 108—January to June, 1932

	Page
Jan. 7	1 to 42
Jan. 14	43 to 78
Jan. 21	79 to 114
Jan. 28	115 to 150
Feb. 4	151 to 198
Feb. 11	199 to 234
Feb. 18	235 to 270
Feb. 25	271 to 306
Mar. 3	307 to 346
Mar. 10	347 to 382
Mar. 17	383 to 418
Mar. 24	419 to 454
Mar. 31	455 to 490
Apr. 7	491 to 530
Apr. 14	531 to 566
Apr. 21	567 to 602
Apr. 28	603 to 638
May 5	639 to 676
May 12	677 to 712
May 19	713 to 748
May 26	749 to 780
June 2	781 to 814
June 9	815 to 844
June 16	845 to 874
June 23	875 to 904
June 30	905 to 934

A

Aeronautics:
Air transport e158
American Assn. for Advancement of Science:
Engineering section meeting n33
American Ceramic Society & Natl. Brick Mfgrs. Research Foundation:
Meeting n266
American Concrete Institute:
Convention reports on concrete research. 369
Mass concrete discussed at meeting.... n562
Mass concrete problems at meeting.... 588
American Engineering Council:
Indorses public-works program n742
Segregation public works approved..... n108
American Institute of Architects:
Housing problems discussed 662
American Institute of Steel Construction:
Mass-production economies sought for small house construction 800
American Railway Engineering Assn.:
Discuss practice and economics..... 443
Neubert elected head n*414
American Road Builders' Assn..... e2
Convention 97
Review progress at convention 97
Washington meeting n666
American Society for Testing Materials:
Material specifications and research at meeting 923
Rubber discussed n415
American Society of Agricultural Engineers:
Application of engineering to agriculture considered at meeting n931
American Society of Civil Engineers:
Approve public works program 732
H. S. Crocker elected president n*110
New honorary members n*109
New York meeting 136
President Hoover disapproves of construction program n775
President Hoover misquotes e749
Proposals misunderstood n776
American Toll Bridge Assn.—organized... n379
American Water Works Assn.:
Illinois section holds meeting n598
Program stresses safety and economy.. 698
American Welding Society:
Ductility discussed at meeting..... 658
American Wood Preservers Assn.:
Treated-timber economics discussed.... 255

AQUEDUCTS

Colorado River aqueduct. F. E. Weymouth *847
Colorado River—bond approved..n265, n838
Paris to have water supply carried by aqueduct *316
Hetch-Hetchy bids low n899
Los Angeles grant for aqueduct approved n901

ASPHALT

Constructing bituminous surfaces. Prevost Hubbard *18
Paving technologists discuss road materials 99
Substitute for asphalt developed..... n841
Associated General Contractors:
Convention discusses legislation and business 140
Discuss legislation and business..... 140
New president n*709
Revival program 697
Sober second thought e679
Association of Asphalt Paving Technologists:
Annual meeting 99
Association of Highway Officials of North Atlantic States:
Atlantic City meeting n301
Associations:
Symposiums made useful e640
Auditorium in Independence, Mo..... n*487
Awards:
G. S. Bartlett awarded to T. H. MacDonald n*110
W. D. Coolidge receives Washington award n336
1931 most beautiful steel bridges..... n870
Winners in bridge design competition.. n*745

B

Beaches formed by bulkheads and pumping sand *468

BEAMS

Beam ends—fixed or free. Robins Fleming ..... l 803
Influence line chart for beam design. Dana Young *330
Simplifying reinforced concrete beam design. Odd Albert *860
Bearings:
Anti friction bearing oil seal *382
Spiral type oilless *524
Blasting:
Largest quarry blast 857
Swamp-fill settlement by blasting..... *354
Bolts:
Have merits e750
Rivet-bolt tested *740

BONDS

Are our cities bankrupt? F. W. Herring 274
Backbone and sense e235
Baltimore to vote on public works bonds n522
Bond values e383
Better outlook for cities e419
California irrigation and reclamation bonds hard hit. T. H. Means..... 862
Colorado River aqueduct bonds approved..n838
Colorado River aqueduct bonds upheld.. n265
Delaware River Joint Commission refused financing n928
Denver sell bonds "over the counter"..n412
Drain bonds void decides Michigan Supreme Court n377
Effective public credit..... e307
Financial embarrassment of cities and states 321
Flood control on San Gabriel River..n840
Fresno irrigation bonds e750
Georgia County votes bonds for public works n415
Hetch Hetchy bonds sold..... n449, 931
Hetch Hetchy employees accept bond payment plan n334
Hetch Hetchy project helped by banks.n267
Labor guarantees bonds e347
Los Angeles to vote on power bond...n334
Louisiana contractors asked to accept bonds n522
Louisiana highway creditors receive cash and scrip n668
Louisiana water works bonds n666
Louisville markets bonds for sewer construction n486
Low road costs make profitable bonds sold below par n412
Michigan to aid municipalities in refinancing n869
Moffat tunnel bond fight n707
Municipal bond sales show improvement 442
Municipal bond trends n707
Municipal bonds e678
Municipal loans aided by credit relief laws. D. W. Woodward 278
Municipal securities today and in the near future. W. B. Brown 177
Nassau County, N. Y., to issue public works bonds n599
New York to vote on relief bonds..... n521
Portland, Ore., proposes unemployment bonds n669
Reconstruction credit for municipal works. Joseph Jacobs ..... l 262
Scarsdale gives full statement in selling bonds e532
Tight municipal finances affect public works 220
Where the money for rural roads comes from. R. C. Fulbright 284

BOOK REVIEWS

Abolition of poverty. H. E. Fryberger.. 261
Advanced mechanics of materials. F. B. Seely 408
America faces the future, ed. by C. A. Beard 863
Architectural graphic standards. Ramsey & Sleeper 738
Barrages conjugues et installations de pomage 738
Basis for stability. Samuel Crowther and others 863
Book of metals. Donald Wilhelm..... 410
Bridges of the Rhine. Karl Mohringer.. 101
Building the city. Adams, Lewis and Orton 408
Business looks at the unforeseen. W. B. Dean 863
City of Bradford. H. Wontner-Smith.. 410
City manager yearbook 1932, ed. by Ridley & Nolting 864
Conservation in the Department of the Interior. Wilbur & Du Puy..... 102
Construction costs 737
Cost of government 737
Design of dams. Hanna & Kennedy.... 260
Earth Dam projects. J. D. Justin..... 863
Earthquake damage and earthquake insurance. J. R. Freeman 259
Elementary hyperbolics for technical and other students. M. G. DeBray..... 591
Elements of curve design for road railway and racing track. F. G. Royal-Dawson 410
Elements of human engineering. C. R. Gow 865
Engineers, engineering, and some vagaries. E. E. Wall 102
Erhartung und korrosion der zemente. K. E. Dorsch 736
Examination of water. W. P. Mason.. 593
Federal service to municipalities. P. V. Betters 103
Fifty years of New York steam service 738
General engineering handbook. C. E. O'Rourke 863
Graphic solution of road and railway curve problems. F. G. Royal-Dawson 410
Gringo builders. J. L. Allhands..... 409
Grundwasser - abdichtung. Joachim Schultze 260
Highway bridges. J. E. Kirkham..... 591
How American cities are retrenching. H. H. Freeman 593
Il riscaldamento dell'acqua nelle condotte. Giulio Supino 594
Incredible Carnegine. J. K. Winkler.... 594
Insect menace. L. O. Howard..... 103
Internal combustion locomotives and motor coaches. I. Franco 738
Jobs, machines, and capitalism. Arthur Dahlberg 863
Manual of electric arc welding. E. H. Hubert 737
Manual of public works records and accounting 737
Mechanique electricite et construction. Louis Rousselet 592
Metropolitan districts, population and area 738
Paradox of plenty. Harper Leech 863
Pathways back to prosperity. C. W. Baker 591
Planned society. George Soule..... 863
Planning for residential districts..... 736
Power and the public, ed. by E. M. Patterson 592
Power ethics. Jack Levin 592
Practical handbook of water supply. Frank Dixey 103
Practical surveying. G. W. Usill..... 865
Pricing for profit. W. L. Churchill.... 409
Primer of money. Woodward & Rose.. 737
Public health in New York State..... 737
Public papers of Francis G. Newlands, ed. by A. B. Darling 865
Public pays. Ernest Gruening..... 592
Purchasing for small cities. Russell Forbes 592
Railroad construction theory and practice. W. L. Webb 408
Railway literature. R. A. Peddie..... 103
Recovery. Sir Arthur Salter 863
Reducing municipal expenditures..... 593
Regulation of public utilities. C. M. Clay 409
Runoff from mountainous areas..... 102
Standard construction methods. G. Underwood 410
Steel structures research committee..... 259
Story of the road from the beginning to AD 1931 593
Talaperren. N. Kelen 260
Textbook of practical astronomy. J. J. Nassau 410
Transporting the A.E.F. in western Europe. W. J. Wilgus 102
Wages and the road ahead. J. D. Mooney 261
Working for the Soviets. W. A. Rukeyser 736
Boston:
Boston-East Boston vehicle tunnel, pt. 1. *917
Breakwaters:
Steel breakwaters e456
Steel sheetpiles for openlake seawall.. *468

BRICKS AND BRICKWORK

Brick arch of 42-ft. span built without falsework *118
Brick keeps surface on non-rigid base. l 774
Brick on metal base fails on Illinois test road *694
Brick paving interests discuss problems. 257
Brick paving practice. G. F. Schlesinger *21
Illinois test of brick surfacing..... e678
Promoting reinforced brickwork..... e875
Reinforced-brick masonry e117
Reinforced-brick masonry tests reported at meeting n266
Research in reinforced brickwork to be organized n300
Standard grading rules adopted for face brick n230
Vertical-fiber lug brick n669
Wall of reinforced brickwork incloses steel water tank *892

*Illustrated; a, abstracts; e, editorials; l, letter; n, news

BRIDGE ACCIDENTS AND FAILURES:
Contractor not liable for washed-out bridges n871
Maryland bridge wrecked during demolition n*230

BRIDGE CLEARANCES
Bridge clearances e43
Fixing standard bridge clearances n484
Railroads protest changes in Illinois bridges n336

BRIDGE CONSTRUCTION
Bascules of 3,800-tons, erected in Arlington bridge. R. S. Foulds *318
Brick arch of 42-ft. span built without falsework *118
Bridge bearing plates of cold rolled phosphor bronze. J. C. Pettigrew .... l 866
Cantilever:
Scotland—concrete bridge cost. D. B. Steinman ..... l 143, l 375
Scotland—concrete bridge cost. E. O. Williams ..... l 375
Concrete bridge at Michigan City, Ind. 874
Creosoted-timber pontoons 245
English railway bridges—welded floor to strengthen *689
Expansion joints in bridge approaches 222
Footbridge—proof in use e44
Lake Union bridge in Seattle, Wash. *313
Lambeth Bridge, London—steel arches replace suspension bridge *480
Parallel-strand cable bridge, Maysville, Ky. *46
Pontoon of creosoted-timber for Mississippi bridge *426
Ridge Road bridge over Genesee River. McKibben & de Charms *507
Santa Fe railway bridge has four deck-truss spans with 100 ft. long towers. Theodore Doll ..... *436, l 630
Skew bascule erection a complicated job. J. H. Townsend *794
Steel delivery barge serves as falsework in erecting bridge span. Soule Butler *686
Strand-cable suspension bridges. Jones, Steinman ..... l 70
Treated-timber highway bridges 286
Trinity River crossings at Dallas have long cantilevers *850
Tyngsborough bridge—floor placed first in erecting steel arch *358
Waldo-Hancock suspension bridge in Maine. Steinman & Gronquist *386

BRIDGE DESIGN
Albany highway bridge 270
Beauty in simplicity e845
Benue River, Africa—bridge replaces car-ferry 538
Cantilever concrete bridge cost. D. B. Steinman ..... l 143, l 375
Cantilever concrete bridge cost. E. O. Williams ..... l 375
Cohoes, N. Y., filled arch concrete bridge *270
Concrete arch memorial bridge at Aurora, Ill. *89
Czechoslovakia has largest all welded bridge. F. Faltus *439
Double piers for expansion in rigid frame bridge. F. C. Hart *207
Expansion joint practice in reinforced concrete arch bridges. E. K. Timby .. 392
Expansion joints e604
French suspension bridges. G. W. Tuttle i*143
Freyssinet arch construction. A. A. Eremin ..... l 375
Guard rail practice on railway bridges .. 911
Jack-knife draws originated about 1845. J. P. Snow *93
Longest railway lift bridge built by M.K.T. railroad *755
Missouri-Kansas-Texas lift bridge. A. D. Harvey ..... l 868
New record-span bridges and some famous predecessors *181
1931 most beautiful steel bridges n*870
Ridge Road bridge over Genesee River. McKibben & de Charms *507
Santa Fe railway bridges has four deck-truss spans with 100 ft. long towers. Theodore Doll *436
Skew bascule bridge between Trenton and Princeton. W. G. Williams *791
Suspension bridge stresses determined by model. Beggs, Timby & Birdsall *828
Winners in bridge design competition .. n*745

BRIDGE FLOORS
Floor slab of steel tees and cross bars ... *843
Thick concrete slab acts well under locomotive test load. C. V. Armour *851

BRIDGE RENEWALS AND REPAIRS
Arresting abutment shifting on a bascule bridge. O. H. Pilkey *725
Jacketed creosoted repel marine borers. W. E. Wheat *208
Revamping 28-year-old steel-truss bridge in Kansas City. J. P. Exum *757

BRIDGES
Arlington, Virginia:
Erecting 3,800 ton bascules in bridge. R. S. Foulds *318
Aurora, Ill.:
Concrete arch memorial bridge *89
Balkans complete longest bridge 66
Benue River, Africa:
Replaces car-ferry 538
Boonville, Mo.:
Longest railroad lift span n*451
Missouri-Kansas-Texas railroad bridge. *755
Bridges e154
British Columbia—Fraser River Bridge to be built n52
British Columbia plans bridge at Vancouver n73
Buffalo, N. Y.:
Old bascule bridge to be replaced by vertical lift span n*335
California:
Concrete highway bridge 934
Cleveland, Ohio:
Main St. high level bridge n709
Czechoslovakia:
Largest all welded bridge. F. Faltus .. *439
Delaware River Joint Commission refused financing n928
Eggners Ferry, Ky.:
Construction costs under estimate n485
Germany:
Island causeway to be built in Baltic. n634
Harrison, Ark.:
Double piers for expansion in rigid-frame-bridge. F. C. Hart *207
Indiana opens three new interstate bridges n930
Kentucky:
Parallel-strand cable bridge, Maysville. *46
Lift bridge model to be placed in industrial museum n*378
London, England:
Lambeth bridge—steel arches replace suspension bridge *480
Waterloo Bridge passes e272
Waterloo Bridge to be replaced n299
Los Angeles County to build bridges to aid flood control n337
Lowell, Mass.:
Tyngsborough bridge—floor placed first in erecting steel arch *358
New record-span bridges and some famous predecessors *181
New York bridge authority created n520
New York City:
New Jersey approach to Hudson River Bridge n*145
Niagara frontier project active n931
Oregon City:
Clackamas River bridge *602
Patriotism rampant e307
Perdido Bay, Fla.:
Jacketed creosoted piles repel marine borers. W. E. Wheat *208
Rio Grande to have suspension bridge n486
Rochester, N. Y.:
Ridge Road bridge over Genesee. McKibben & de Charms *507
San Francisco:
Bay Bridge plan revised n804
Golden Gate contracts extended n144
Oakland bridge progressing n195
Seattle, Wash.:
Lake Union cantilever bridge *313
Suspension:
Waldo-Hancock bridge in Maine. Steinman & Gronquist *386
Sydney, Australia:
Bridge formally opened n448
Great bridge completed e420
Toledo, Ohio:
Summit St. bridge—arresting abutment shifting. O. H. Pilkey *725
Toll:
Delaware River bridge between Tacony and Palmyra. K. S. May ..... l 333
Hood River White Salmon bridge. E. M. Chandler ..... l 560
Mississippi River toll bridge from Wisconsin to Iowa n*632
Toll-bridge successes e347
Toll schedules reduced on Staten Island bridges n523
Trenton, N. J.:
Skew bascule bridge between Trenton and Princeton. W. G. Williams *791:
J. H. Townsend *794
Washington, D. C.:
Arlington Memorial bridge opened .. n*265
British Engineering Standards Assn.—reorganizes 852

BUILDING, ACCIDENTS AND FAILURES
Accident rate cut on construction of Ohio State office building. E. P. Martin ... *687
Columbus, Ohio—leaking gas main blamed for accident n898
Columbus, Ohio—damaged office building to be completed n631
Columbus, Ohio—explosion in state office building n*597; n775
Emergency tells e605
Manslaughter conviction claimed unfair. Paul Chapman ..... l 105
Ohio state building explosion investigated n706

BUILDING CONSTRUCTION
Building inspector guilty of accepting gratuity n520
Derrick travelers adapted to steel frame building erection *692
Stabilization in the building industry. R. D. Kohn 172
Texas universities building program .. n34
Two Mid-West warehouses built in 1925, 27 repriced to 1932 844
Walls, windows and workmen e45

BUILDING DESIGN
All-metal office building for Richmond, Va. *441
British Colombia uses one-way reinforced slabs. C. T. Hamilton *364
Conservatory uses aluminum-alloy framing *539
Crane serves as elevator in five story building. Andrew Vogel *720
Designing dollars into buildings e491
Estimating field welding on multi story buildings. F. P. McKibben 94
Frame analysis by slope-deflection method. J. E. Goldberg ..... l 225
Gulf Oil building in Pittsburgh uses long span steel framing *510
Multiple periods in vibration of San Francisco buildings 886
Seven-fifty per room e568
Treasury Department design of public buildings e308
Building laws and regulations:
Uniform mechanics' lien act prepared .. n634
Building materials:
Spandrel of cast or sheet aluminum alloy. *216

BUILDINGS
Baton Rouge, Louisiana:
State Capitol n*743
Buildings e154
Chicago, Ill.:
Contractor's office building *758
First unit of Field building n*807
Hall of Science for World's Fair n*146
Rothschild Building addition uses floors of gypsum blocks and concrete slab. H. J. Schweim *506
Cincinnati, Ohio:
Semi-dome steel frame roof on railway terminal. O. S. Payzant *817
Holland:
All steel and all concrete office buildings n*33
Home Insurance Building. E. S. Nethercut ..... l 446
Independence, Mo.:
New auditorium n*487
Indiana Harbor, Ind.:
Continuous plate mill constructed in nine months n*449
New York City:
Cities Service building n*839
Federal Hall replica built in Bryant Hall n*667
Port Authority terminal—steelwork *692
Radio City steel work n*266
North Arlington, N. J.:
Office building with steel frame and concrete walls *87
Philadelphia, Pa.:
Girard College Chapel—placing the structural steel *465
Pittsburgh, Pa.:
Gulf Oil Building *510
Post Office and Federal Building n*450
Richmond, Va.:
All-metal office building n*229
All-metal office building *441
Washington, D. C.:
Conservatory uses aluminum alloy framing *539

BULKHEADS
Steel pile bulkhead, Lincoln Park, Chicago n*32
Steel-pile bulkhead wall. J. W. B. Blackman ..... l 896

BUSINESS CONDITIONS
Business breakdown and recovery as related to construction. Virgil Jordan. 167
First quarter and after e531
Neither Washington nor Wall Street e781
Newborn confidence e236
Public construction for business recovery e677
Better late than never e604
Glass-Steagall act n338
Money loaned to Latin American governments e533
Public borrowing now would retard recovery. W. H. Wheeler ..... l 868
Reconstruction Finance Corp. n338

C

CABLES
Laying telephone cable underground *224
Parallel-strand cable bridge *46
Strand cable suspension bridges. Jones, Steinman ..... l 70
Suspension bridge cables e44

CAISSONS
Deep open caisson foundations for transmission towers *696
Displaced caissons restored at Shimidzu Harbor, Japan. Teizo Simano *648
Jetted-casing method employed for caisson excavation *135
Santa Fe Railway bridge — caissons sunk by open dredging and pneumatic system. Theodore Doll ..... *436, l 630
California Irrigation Districts Assn. n778
California Irrigation and Reclamation District Bondholders' Assn.—organized n564

CANALS
All-American Canal form of contract approved n265
All-American Canal contract to be voted on n144
Beauharnois Canal to be taken by Canada n378

*Illustrated; a, abstracts; e, editorials; l, letter; n, news

Belgium constructing canal from Antwerp to Liege 512
Bordeaux Marseilles project 460
Canal-bank maintenance by disking on Imperial Irrigation District. M. J. Dowd *206
Drainage canals of New Orleans to be enlarged n841
Mittelland Canal in Germany *893
Panama Canal not to have ferry n35
Rhine River Canal and hydro electric plant *551
Tonnage declines on New York Canals.. n522
Welland Canal gate lifter subjected to 500-ton test. A. F. Case *86
Carlsbad Cavern installs elevator. Kittredge & Attwell *821

CEMENT

Another cement plant projected 1 867
Association warns against use of sugar.. n842
Cement container questions 1 867
Cement differential 1 482
Cool-room cement testing at Arizona highway laboratory. J. W. Powers.. 297
Demoralization and reorganization in the cement industry. O. Fred Rost
Pt. 1, competition and price collapse. 404
Pt. 2, reorgannization by regrouping plants. O. Fred Rost 513
Hot cement e236
Hot cement has no ill effects in concrete paving 244
Industry lacks coherence. J. H. Ackerman 1 629
Mills have safety record n32
Natural cement mortar found strong after half a century. P. H. Bates.... 96
Old mortar is strong e79
Price system criticised by Trade Commission n561
Psychological competition e385
Self-imposed depression 1 740
U. S. Bureau of Public Roads to accept tests only from inspected laboratories..n147
Central States Sewage Works Assn. & Illinois Assn. of Sanitary Districts..... n777
Century of Progress Exposition n841
Charts:
Graphic methods aids plotting of hydrographic locations. H. S. Pond..... *718
Influence line chart for beam design. Dana Young *330
Simplifying reinforced concrete beam design. Odd Albert *860

CHICAGO

Engineers propose tax reforms in Chicago district n899
Engineers to study government in Chicago n930
One-way streets and grade separations to speed traffic. Robert Schlemm *87
Sanitary District lays off employees.... n230
Sanitary District officials convicted... n265
Tax crisis n32
Water revenue 606

CITIES

Are our cities bankrupt? F. W. Herring. 274
Boulder, Colo., investing relief in civic improvements. H. C. McClintock .. 823
Cities provide essential services at low cost. C. A. Dykstra 458
City credit throttled e273
Financial embarrassment of cities and states 321
Increasing municipal costs. F. W. Herring *365
Municipal credit e235
One way to cut taxes e782
Pasadena votes recall of city directors.. n32
Port Arthur, Tex., adopts manager plan. n414
State aid for cities e816

CITY PLANNING

Baltimore city plan commission n520
Canton, China, plans reconstruction.... 550
Home community planning 316
New York regional plan units merge into one group n744
Philadelphia region plan completed.... n484
Philadelphia tri-state region has 50-year plan n377
Regional planning e156
Traffic requirements determine one trend in city development. D. G. Mickle.. *759
Coal mines:
Stripping practice with giant power shovels. Shurick & Toenniges *642
Cofferdams:
Accident in Great Kanawha River cofferdam unavoidable n838

COLUMNS

Anchoring billets and columns by welding. A. S. Coombs *223
Cast-iron pipe for columns and column cores *827
Tests provide new data on concrete-column design *764

COMPRESSED AIR AND AIR TOOLS

Aftercooler for portable air compressors *601
Air compressor *149
Air compressor mounted on tractor... *636, *671
Four cylinder portable air compressor.. *566
New line of air compressors *809

CONCRETE

Absolute volume proportioning of concrete. J. A. Kitts 1 332
American Concrete Institute convention a research meeting 369
Arch memorial bridge at Aurora, Ill... *89
British Columbia uses one-way reinforced slabs. C. T. Hamilton *364
Cement-water ratio by weight. Inge Lyse 1 447
Cement-water ratio. G. A. Steinman... 1 298
Concrete research and the future..... e348
Design and control of concrete mixes. Inge Lyse 248
Double piers for expansion in rigid frame bridge. F. C. Hart *207
Efficiency of concrete mixing recorded by wattmeter. I. A. Butcher *885
Expansion joint practice in reinforced concrete arch bridges. E. R. Timby.. 392
Filling cuts and openings in concrete pavement *558
Flow and shrinkage e731
Hexagon slabs pave English highway... *96
Highway construction. E. M. Fleming. *14
Hollow concrete piles made by centrifugal process. L. R. Need *374
Hot cement has no ill effects in paving 244
Job curves and water-cement ratios. F. T. Mavis 1 226
Joint concrete committee plans code revision n929
Louisiana's concrete paving construction. H. B. Henderlite 27
Mass concrete problems at meeting of Amer. Concrete Inst. 588
Mechanical aids to concrete mix design. F. T. Mavis *704
Outfall sewer in good condition after twenty years. Ruark & Keefer..... *721
Paper tubing as form spreader..... *233
Pneumatic placing of tunnel lining saves grouting. J. H. Fitzgerald..... 1 262
Porous light weight concrete for long span floors. A. G. Hillberg *799
Ready-mixed concrete problems discussed at convention 219
Science applied to concrete mixing e533
Shallow concrete floor for Philadelphia schools. V. L. Johnson..... *390
Simplifying reinforced concrete beam design. Odd Albert *860
Sound concrete e43
Steel frame houses with poured light weight concrete walls *87
Straight-line concrete formulas in Europe. H. W. Walsh 1 897
Tests provide new data on concrete column design *764
Thick concrete slab acts well under locomotive test load. C. V. Armour.... *851
Thin concrete shells for domes and barrel-vault roofs *537
Time studies of concrete paving bring savings. P. M. Tebbs 772
Tunkhannock viaduct — report on 17 years' service. M. Hirschthal *57
Two course concreting assures exact level of steel *477
"Unitrave system" concrete and gypsum blocks for floor. H. L. Schweim.... *506
New vibrator *747
Wayne County concrete pavements..... 28

CONCRETE AGGREGATES

Automatic cutoff attached to scale dial. *637
Automatic material batchers at Hoover Dam *534
Machine saturates aggregates with bitumen *269

Savage, J. L. and I. E. Houk: Model tests confirm design of Hoover Dam *494
Sawyer, D. H.: Timed public works..... 1 105
Schlemm, Robert: One-way streets and grade separations to speed traffic..... *67
Schlesinger, G. F.: Brick keeps surface on non-rigid base 1 774
Technical advances in brick paving practice *21
Schweim, Henry J.: Light floor combines gypsum blocks and concrete slab..... *506
Scott, Carl F.: Increased public construction needed 1 896
Seelye, E. E.: Assuming responsibility for structural welding *769
Shannon, W. D.: First major low-head power plant in the West-Rock Island.... *240
Shaw, Arthur M.: Chinese railway continues construction work *427
Sherman, L. K.: Streamflow from rainfall by unit-graph method *501
Shurick, A. T. and F. E. Toenniges: Coal-mine stripping practice with giant power shovels *642
Simano, Teizo: Displaced caissons restored at Shimidzu Harbor, Japan *648
Singleton, Jack: Load and pull tests on steel H-section piles *324
Slack, Searcy B.: Design of highway guard-rail dictated by tests *824
Smith, George A.: Use cement-water ratio judiciously 1 298
Smith, William Thompson: Economy in wider use of protective coatings on pipes 576
Snow, J. P.: Jack-knife draws originated nearly 100 years ago *93
Somervell, Brehon: Slab-revetment equipment, Mississippi River *554
Spangler, M. G.: Design for casing pipe undercrossings 580
Spelman, H. J.: Machinery revolutionizes highway grading *10
Spillman, Harry: Cylinder underpinning checks sinking foundation *544
Staubach, Arnold B.: Solar meridian by stopwatch 1 263
Specializing in engineering 1 70
Steinman, D. B.: Cantilever concrete bridge cost 1 143; 1 375
Engineering education 65
Engineers need licenses in own interest.. 1 297
Strand-cable suspension bridges 1 71
Steinman, D. B. and C. H. Gronquist: Building first long-span bridge in Main..... *386
Stringer, H.: Developing a water supply from polluted Chinese River *833
Sullivan, J. J.: Maintaining river channels by shoal dredging *50
Sure, A. F.: Form for tabulating highway earthwork *13

Talbot, K. H.: Backfilling service trenches. 1 803
Taylor, Henry W.: Low-cost sewage plant made possible by building new intercepter. *685
Tebbs, P. M.: Laying out a curve without a transit *29
Time studies of concrete paving bring large savings 772
Thompson, Sanford E.: Construction revival is essential to prosperity..... 134
Thurston, E. T.: License law accomplishments 1 560
Timby, Elmer K.: Survey of expansion-joint practice in reinforced concrete arch bridges 392
Timby, Elmer K., G.E. Beggs and Blair Birdsall: Suspension bridge stresses determined by model *828
Toenniges, F. E. and A. T. Shurick: Coal-mine stripping practice with giant power shovels *642
Townsend, Joseph H.: Skew bascule erection a complicated job *794
Troemel, Irving: New York subway construction *546
Tucker, Harry: Highway engineering and its relation to accidents 322; 376
Turneaure, Dean F. E.: Engineering education 66
Tuttle, George W.: French suspension bridges 1 *143

Upham, Charles M.: Estimate of highway construction in 1931 26

Van Breeman, William: Preparing birdseye views from engineering plans *30
Vogel, Andrew: Crane serves as elevator in five-story building *720

Walsh, H. W.: Straight-line concrete formulas in Europe 1 897
Weymouth, F. E.: Great job looms in the Colorado River aqueduct *847
Wheat, Winston E.: Jacketed creosoted piles repel marine borers *208
Wheatley, E. A.: Engineering education... 65
Wheeler, Walter H.: Public borrowing now would retard recovery 1 868
Whitaker, R.: Silt-sampling apparatus used on the Missouri River 395
Willard, E. V.: Land drainage in Minnesota 1 107
Williams, Dean C. C.: Engineering education 63
Williams, E. Owen: Cantilever concrete bridge cost 1 375
Williams, William Guy: Skew bascule a strange and unique structure *791
Willits, V. W.: Surveys record data on sewer system hydrology 320
Wimsett, H. O.: Regulating interstate truck traffic 1 263
Witmer, Francis P.: Cross method applied to secondary stresses 132
Woodward, D. B.: Municipal loads aided by credit relief laws 278
Wooton, Paul: United States Supreme Court rules Kincaid injunction illegal.. n299

Young, Dana: Influence line chart for beam design *330

Zass, W. W.: Comparative costs of four types of road surfaces 400
